

Glad Tidings to all...

Each December we like to keep up the traditions of Secret Santa and advent calendars. This year we thought we'd do it slightly differently and help to benefit the community who might be less fortunate than ourselves. We exchanged Secret Santa gifts but instead of each opening a door on the advent calendar, each day a staff member brought their contribution to Batley food bank. The staff at the food bank were thrilled and wrote to thank us.

New faces

Olivia joined us as our newest apprentice nurse in September. Olivia follows in the footsteps of her Mum who used to be a dental nurse herself. Olivia is studying for a level 3 Diploma in dental nursing and studies at Wakefield college one afternoon per week.

Bridie joined us in October. Bridie is one of our front-of-house reception team. You'll usually find her greeting you on your arrival.

Educating Eclipse

In December we held one of our yearly training days. We refreshed our knowledge on cross infection and learned more about social media. We are keen to tell our valued patients about the special offers we may have and other interesting bits and pieces. Like our Facebook page and see what's happening at Eclipse.

We're on Instagram too – check us out there too.

Starting young...

Each year we like to visit a local pre-school or nursery school to talk to the children about the importance of tooth brushing and a good diet. Sadia and her nurse Lyndsey went to talk to the children at Dale House school and play games with them. Spike, our friendly dragon went along too. Spike Loves an outing!

Coming of age for Kaitlan

Kaitlan celebrated her 18th birthday in November. Kaitlan had wanted her teeth whitening for a long time and on her 18th birthday she was able to do so! We bought her custom-made trays and a whitening kit. Ask your dentist or one of our reception team for further details. Whitening costs just £375.00 and top-up syringes £15.00 so you can give your teeth a spruce up whenever you want to. Get yourself a selfie-ready smile for those holiday pics!

Review us

Now, after your appointment we'll text to ask if you'd like to leave us some feedback about the service you've received. We are delighted with all our 5* reviews and the lovely comments our patients leave us. It makes us very proud of what we do and comments are fed-back to the staff each day.

Bye Bye Reena...

Reena Patel left us in January. She had worked with us just one day per week recently but finally the shorter commute was too good to pass on. Good luck Reena, we will miss you!

To ensure that we stay right up to date with the latest technology, we have recently installed a new Orthopantomogram (OPG) and Lateral Cephalometric Radiography machine. An OPG provides a panoramic view of the mouth, teeth and bones of the upper and lower jaws. A Lateral Ceph shows us a sideways view of the face. This means we can look at the bones and facial contours in profile on a single film. Patients who are having Orthodontic treatment (straightening of the teeth) are most likely to have this type of x-ray taken. An Orthodontic consultation with Jill Collins who is a specialist orthodontist costs £40.00.

Rugby Team Eclipses the Opposition.

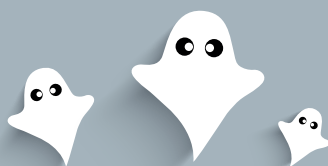

Fans of under 11s rugby in Wetherby will notice their team in a new strip this season. We have sponsored their shirts. Let's hope their new kit is lucky for them!

Fright Night!

Halloween was in October. As you can see, even scary pumpkins take care of their teeth!

Follow us on Facebook and Twitter for details of our special offers and discount deals. You can also give reception your email address and we will mail you our special offers that you may be interested in. Look out for competitions and money saving deals.
